Profile

Software Engineer with experience developing high-quality user interfaces and web applications. Transitioned from the hospitality industry, leveraging 12+ years in fast-paced environments to excel in collaborative, Agile teams. Proven ability to quickly learn new technologies, deliver reliable solutions, and contribute to both front-end and back-end development. Passionate about collaborating to create AI-powered, user-centric applications.

Professional Experience

2024/03 – Present
Remote

Junior Software Developer

Hawthorne Supply Co.

- Integrated AI functionality using RESTful APIs to enhance product offerings with AI-generated content.
- Implemented Google and Facebook Single Sign-On (SSO) to streamline user authentication processes.
- Contributed to back-end development using Ruby and PostgreSQL.
- Focused on writing maintainable, high-quality code while collaborating in a small team setting.

2021/01 – 2024/03
Red Hook, NY

Senior Warehouse Associate/Data Entry

Hawthorne Supply Co.

- Added over 5,000 products to the company website, focusing on usability and accuracy.
- Managed product orders and maintained relationships with 15+ manufacturers, demonstrating a commitment to collaboration and relationship-building.
- Created marketing images using Adobe Photoshop and DSLR cameras in a studio setting.
- Operated textile printers and digital printing software to print 100+ yards of fabric per day.
- Effectively communicated with warehouse staff to fulfill and ship orders.
- Handled receiving and inventory duties.

Education

2023/10 – 2024/07

Certificate in Full Stack Web Development

Parsity Software Engineering School

- Completed over 750+ hours of intensive training in full-stack development, focusing on JavaScript, React, Express.js, and MongoDB.
- Developed scalable backend applications using React, Node.js, Express, and MongoDB.
- Built and deployed full-stack applications, including a music catalog app, showcasing strong problem-solving skills and a passion for creating practical solutions.
- Utilized source control and collaborated with classmates on lessons and Agile projects.
- Participated in Agile development practices, including daily stand-up meetings and group projects.
